

At Home Creation Station

Cardboard Tube Robots

You will need:

cardboard tubes
markers
scraps of paper and other decorating materials
glue stick/ scissors

Directions:

Use your imagination and create some robots from recycled cardboard tubes. You can draw shapes on paper and cut them out and then glue on to the tube, or, just draw on the tube. Look around and see if you have other materials on hand that you could use to decorate your robots like stickers, foil, beads or buttons, pipe cleaners, wiggle eyes. Have fun!
